

MBA Program Structure

The MBA program is designed to be completed in two years and has three components.

1. Pre-term modules. (2 5000 level credits). Students take two 1 credit courses before the start of their first semester.

2. Core courses. 10 courses (30 credits).

ADMI 6510: Decision Theory
ADMI 6531: Management and Leadership
ADMI 6595: Global Strategic Management
ADMI 6637: Business Ethics and related topics
CONT 6501: Accounting for Analysis and Control
ECOG 6567: Managerial Economics
FING 6501: Corporate Finance
GEOP 6539: Operations Management
MECU 6551: Fundamentals of Statistics
MERC 6541: Marketing Management

3. Electives. 12 credits of graduate level courses from the UPR-RP. At least 6 credits from EGAE courses. Students can take all electives at the EGAE. Electives will be offered based on student demand and availability of resources. Students that are interested in a focus area can opt to complete all elective courses from a recommended course set (EGAE courses).

Note on course replacements. Students that have a bachelor's in business (or related field) can request that the related core course be replaced by an elective in that area. However, this elective will not count towards the 12 credits of required electives. For example a student with a BBA in Marketing can request to take MERC 6705 (Advanced Marketing) in lieu of MERC 6541 (the core course). Similarly, a student with a bachelor's in Industrial Engineering can request to take GEOP 6735 (Supply Chain Management) in lieu of GEOP 6539 (the core course). Contact the MBA coordinator to discuss specific cases.

Time to degree

The program's structure allows students to complete the program in two years (subject to course availability/ resources).

Semester 1 3 CORE	Semester 2 3 CORE	Summer 1 1 ELECTIVE
Semester 3 2 CORE 1 ELECTIVE	Semester 4 2 CORE 1 ELECTIVE	Summer 2 1 ELECTIVE

Recommended course sets (EAGE courses) based on areas of interest

	Recommended Electives
